The staff at Family Vision Center would like to start off by telling you a little bit about our company. We are based out of Connecticut and have over 40 years of experience in the eye care industry. In addition to quality family eye care services performed by us, we sell contact lenses, eyeglasses and designer frames at heavily discounted rates. Check out our new Family Vision Center website, www.ct-eyecare.com, to learn more about us, our services and to request an appointment at one of our facilities.

Family Vision Centers online store, FamVision.com, offers popular brand name contact lenses for up to 50% off retail prices. Unlike most online contact lens stores, Famvision is operated by experienced optometrists available to answer any of your contact lens questions. Famvision processes orders 7 days a week and will ship any contact lens order with a prescription to anywhere in the United States.

Thank you for taking the time to read the first Family Vision Center newsletter. Customers on our mailing list are the first to be notified of any Famvision specials and can gain valuable eye care information and news. If you have any suggestions on how we can improve this newsletter than please feel free to contact us. If you do not wish to receive this newsletter in the future there is an option at the top of the page to remove yourself from our mailing list. Since this is our first newsletter we took the liberty of sending it to everybody who has contacted us in the past. We apologize if receiving this newsletter inconvenienced you.

Contact Lens Safety

Do's and Don'ts For Contact Lens Wearers

The staff at Family Vision Centers wanted to pass along some information from a recent national publication that we have found to be very helpful in educating patients on the importance of Contact Lens Safety. Here are some tips on how to properly care for your contact lenses and lower your risk of infection.

First, be sure to always clean your contacts with care. With various cleaning methods available ask your eye doctor what cleaning method is best for you. Don't put any solution directly into your eyes while wearing your lenses, unless it is specifically formulated for that purpose.

Since some solutions kill bacteria for 30 days, while others work for only 7 days, make sure to check your solution's label to see how long you can store your lenses. Every time you remove your lens clean the case and add fresh solution, but don't top off the solution. Replace your contact lens case at least every 3 months and use disinfecting solution to clean your case.

There are some everyday cautions that contact lens wearers should be aware of. Be sure never to put your lenses in your mouth or even moisten them with saliva. If your eyes are red or irritated, don't wear your contacts. Wear your contact lenses as instructed and be sure to see your eye doctor at least every year.

New Biofinity Contact Lenses

Comfort Meets Affordable

CooperVision has released their new Biofinity line of Contact Lenses that are natural and comfortable. Biofinity Lenses are monthly disposable contact lenses made available in a "Sofblue" visibility tint for easy insertion.

To create these new Biofinity Contacts, CooperVision has used its patented Aquaform technology. The Aquaform technology made Biofinity lenses softer and more flexible thus maximizing comfort.

Biofinity Lenses offer higher water content and high oxygen permeability allowing for optimal eye health. The Biofinity Contact Lenses also contain no additives which further optimizes lens comfort and eye health.

Biofinity Contact Lenses can be purchased through our online store for as low as \$49.00 per box (6 lenses in each box). If purchased with the above coupon you can receive an additional 10% off your Biofinity purchase.
